 Siddharth Vihar, Ghaziabad

## Profile Summary

Results-driven Project Manager with 4+ years of experience leading end-to-end delivery of software products across AI, blockchain, web, and mobile platforms. Proven track record of managing multiple client engagements simultaneously, driving projects from requirements gathering and planning through development, testing, deployment, and successful client handover. Skilled in stakeholder management, project governance, Agile delivery, risk mitigation, resource planning, and cross-functional coordination to ensure on-time, high-quality project execution.

Experienced in leading distributed teams of up to 15–20 members across product, engineering, QA, and operations functions, while maintaining delivery roadmaps, tracking KPIs, and ensuring alignment between business objectives and technical execution. Strong expertise in Jira, Confluence, Scrum, and project reporting, with a demonstrated ability to improve team efficiency, manage competing priorities, and deliver complex projects within scope, schedule, and budget across fast-paced, client-facing environments.

## Experience

**Project Manager - Leewayhertz** (2020 – 2024)

### Key Result Areas:

- Directed end-to-end delivery of software projects across AI, blockchain, web, and mobile platforms, managing the complete project lifecycle from requirements gathering and planning to deployment and client handover.
- Managed multiple client engagements simultaneously, ensuring alignment between business objectives, project scope, timelines, budgets, and technical execution.
- Led cross-functional teams of 15–20 members comprising Product Managers, Developers, QA Engineers, Designers, and Operations teams, driving collaboration and successful project outcomes.
- Established project governance frameworks, maintaining project plans, delivery roadmaps, status reports, and stakeholder communication channels.
- Facilitated Agile ceremonies including sprint planning, daily stand-ups, backlog grooming, sprint reviews, and retrospectives to improve delivery efficiency and team performance.
- Monitored project risks, dependencies, resource allocation, capacity planning, and delivery KPIs, implementing mitigation strategies to ensure on-time delivery.
- Coordinated UAT, release management, testing cycles, and deployment readiness activities while ensuring seamless collaboration between product, engineering, and QA teams.
- Developed and maintained project dashboards and performance reports using Jira and Confluence, providing visibility into sprint progress, resource utilization, release readiness, and project health.

## Skills

- Project Management
- Agile Methodologies
- Stakeholder Management
- Process Improvement
- Risk Management & Governance
- Client Relationship Management
- Data Visualization
- Jira, Confluence, MS Teams, Google Sheets, Slack, Zoom
- Deployments (Google Console, Apple App Store)
- Prompt Engineering
- ChatGPT, Claude, Gemini
- Tools - Postman, JMeter, Bugsee, VSCode, MongoDB

## Certifications

- Google certified Project Management Professional
- Gen AI Overview for Project Managers

## Awards

2024 | Leewayhertz  
**CEO Choice Award**

2023 | Leewayhertz  
**Outstanding Performer Award**

2022 | Leewayhertz  
**Employee of the month**

Key Highlights:

- Successfully delivered multiple concurrent projects across diverse technology domains while maintaining high client satisfaction and adherence to delivery commitments.
- Managed distributed teams across multiple functions and locations, improving collaboration, accountability, and delivery predictability.
- Streamlined project tracking and reporting processes through standardized governance practices, improving transparency for stakeholders and leadership teams.
- Established proactive risk management and dependency tracking mechanisms, reducing delivery bottlenecks and minimizing project escalations.
- Enhanced sprint execution and release planning processes, contributing to improved team productivity and faster feature delivery cycles.
- Acted as the primary point of contact for clients and senior stakeholders, ensuring effective communication, expectation management, and issue resolution throughout the project lifecycle.
